

251

SIZES 5-14 (6.5-10.5)*

HIGH LEG ZIPSIDER BOOT

The 251 comes with the same comfort as the 261. Same protection, too. They're just cut a bit higher for extra ankle strength on the job.

You still get a 200J steel toe and electrical hazard resistance. Plus, a slip, oil and fat resistant TPU/PU ToughSider® sole to keep you steady underfoot.

The YKK zip with ZipGuard gets them on and off quick, while inside the OrthoTec® Air footbed and AirZone® Comfort System help cushion and support you through long shifts.

Crafted with premium leather, a padded tongue and collar, and a temperature-regulating lining, 251s give you all-day comfort from day one.
